B. F. QUIGLEY & CO'S PROPERTY ATTACHED

Poultry Firm with Headquarters in Old Robinson Brewery Building Failed to Pay Wages Saturday Night.

By Attorney E. H. Peterson, representing several creditors for work and labor and C. S. Jackson, landlord of the building, attachment proceedings were instituted today against the property of Benjamin F. Quigley & Co., a poultry and egg firm which came here from Rockford last October and established headquarters in the old Robinson brewery on South Jackson street. The firm head was supposed to send money for the pay roll Saturday night but failed to do so. Mr. Spear, the local manager, tried to locate him in Rockford, but was unsuccessful, receiving word that he had gone to Chicago. A large quantity of crates and cages, but no produce is on hand at the local headquarters. The company's season runs from Oct. 1 to Feb. 1 and at one time as many as seventy-five men were employed in picking and preparing fowls for the market. It is thought by those conversant with the affairs of the company that Mr. Quigley's troubles are merely temporary and he will continue his Janesville branch.

Mrs. Child was called upon for remarks and responded with an address which inspired and enthused every listener. Several hours were devoted to cards and a social good time and a delicious repast was served shortly before midnight when the festivities came to an end. For all present the occasion proved one of the most delightful with recollection.

The suitcase, which with its contents is valued at about \$17, was left on

the car at 3 o'clock in Holmen and the owner thinks it may have been taken while the car was in this city. Among other articles it contained some laundry, marked with the owner's initials, and several books with his name inscribed on the fly leaves.

JUDGE LANDIS CHARGES JURY.

Orders Investigation of Alleged Deed Trust at Chicago.

Chicago, Jan. 25.—In one of the most remarkable charges ever delivered to a federal grand jury Judge Kenneth M. Landis formally started the probe that is to be made into the alleged combination among the big Chicago packing concerns in restraint of trade.

Excoriating the department of justice at Washington in scathing language and referring to certain of its members as "governmental functionaries," Judge Landis deplored in forceful manner the forecast published recently in the newspapers concerning the plans of federal officials once more to place the "beef trust" under legal fire and seek the conviction of those believed responsible for the combine that is said to exist.

Such disclosures on the part of federal legal officials and the press, he asserted, not only tended to obstruct the orderly administration of justice, but also inflicted a wrong upon any individual whose conduct was under scrutiny. A profound stir was created in the courtroom when Judge Landis informed the members of the grand jury that he reached the determination some time ago to call the attention of that body to "alleged circumstances and conditions" connected with the fresh meat industry.

LEAVES REMEDY TO EXCHANGE.

Report of 'Evils of Wall' Street Submitted by Committee.

New York, Jan. 25.—"If, however, wrongdoing recurs and it should appear to the public at large that the exchange has been derelict in exerting its powers and authority to prevent it, we believe that the public will insist upon the incorporation of the exchange and its subjection to state authority and supervision."

This is what the committee appointed by Gov. Hughes to investigate the evils of Wall street reported to the governor when it was convinced that the ins and outs of stock gambling were indigenous to the stock exchange itself. The remedy, it was recommended, should be left to the exchange.

GAINS A POINT; LOSES ANOTHER.

Helme Scores in Battle to Stop Delay in Trial.

New York, Jan. 25.—P. Augustus Helme lost one point and gained another in connection with the pending charges against him for alleged misapplication of bank funds.

Judge Hough in the United States circuit court denied the application of the former "copper king" for an order enjoining the government from securing further indictments on the charge following the recent quashing of one of the indictments previously found. The court then decided that Helme must be brought to trial on the two indictments still pending. The date for the trial was set for March 3.

BEGINS GRAIN RATE INQUIRY.

Commerce Commission Start Investigation Covering Entire Country.

Chicago, Jan. 25.—Investigation of milling and transit freight rates will be made by the Interstate Commerce Commission in Chicago today. The investigation, which is the first general inquiry undertaken by the Interstate Commerce Commission in several years, will cover the entire country and will be conducted by Special Examiner John H. Marble of the commission.

This inquiry may decide the destiny of Minneapolis as a flour-producing city. Shippers in the northwest are able to send grain, and have it milled, by way of the great lakes to Buffalo. At Buffalo it was made into flour and shipped to New York at the same rate. The rates by water are lower than railroad, and as a result Buffalo as a flour center grew, while Minneapolis lost. It is charged that if the rates are allowed to continue as they are at present Minneapolis as a flour-producing city will be doomed, and Buffalo will become the greatest flour mill city in the world.

They declare he made certain admissions which with circumstantial evidence in the police department's possession convinces them that they at last have the man responsible for the Shibley-Lomax tragedy.

The Optimist's Corner

Daily Helps to Health and Happiness

By GEORGE F. BUTLER, A.M., M.D.

Neurasthenia, or nervous prostration, is simply exhaustion of the nervous vitality, and is produced by any conditions which draw unduly upon the patient's strength. Overwork, anxiety, worry, loss of sleep, with over or under-feeding, unhygienic living, etc., are the usual causes. It is likely that the taking into the system of a quantity of food larger than the system can digest or excrete is a common cause of nervous prostration. Digestion is work, and many people are kept below par in mind and body because of the drain of digesting and excreting a larger quantity of food than they need.

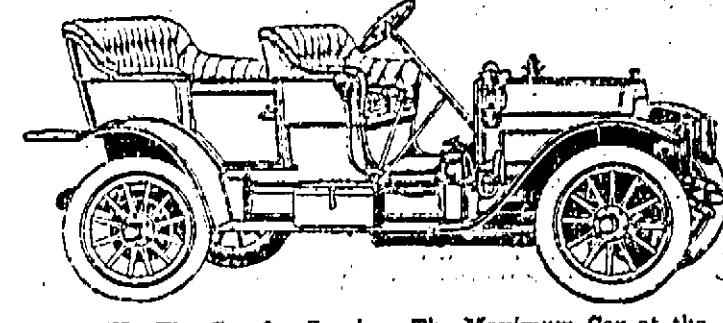

The only treatment of nervous prostration which promises good results is the hygienic. Two meals a day should be taken of light, nutritious food, consisting largely of cream, fruits, nut foods and cereals. A half-pint of hot water one hour before each meal and free water drinking between meals will be beneficial. Little or no fluids, however, should be taken with meals. This treatment, with proper baths, light, exhilarating outdoor exercise and freedom from worry will usually effect a cure.

DAILY DIET HINTS

By DR. T. J. ALLEN Food Specialist.

SIMPLE DIET PROLONGS LIFE.

The soft skin, bright eyes, ready memory and active imagination of youth are due to the free and full supply of rich, pure blood to the brain and all the tissues; but when the arteries become hardened and clogged by the deposit of food waste absorbed into the blood, the signs of age appear. Fear blanches the cheek, love warms the mental attitude influences not only digestion but all the physical functions; physical exercise, short of fatigue, stimulates the blood current to carry away the waste products which would otherwise stagnate like the deposits in low pressure water pipes; and hard water is a constant source of arterio-sclerosis, as this hardening process is called, distilled water antidoting it by dissolving deposits to some extent, as apples, grapes and other acid fruits do. The main source of this aging process is the food, and the foods most effective in this way are meat and cereals in overabundance. Metchnikoff traced Bulgarian longevity to buttermilk, but Corneo, Parr and many other cases are clearly traceable to simplicity in eating, avoiding incompatible mixtures.

**SURRENDER ALL OF
CONTRACTS IF ANY**

That is Answer of Local Lodge Physicians to Colleagues Who Are Calling for Medical Reformation.

At the meeting of the Rock County Medical association, which is to be held at the common council chambers in Beloit at eight o'clock this evening, "Lodge Contract Practice" will come up for another animated discussion and recommendations will be made by Drs. L. P. Bennett, S. H. Buckmaster, M. A. Cunningham, and H. E. Burger. The same subject was discussed at the meeting held at a meeting held in Janesville several weeks ago and the arguments pro and con have been waxing warmer and warmer ever since that time. Those who are active as physicians for the lodge say that any information must include railroad company, factory, county poor, and all other contracts and as a large number of the doctors are "under contract" in one form or another, the outlook for an abandonment of the contract system so far as their less fortunate colleagues are concerned, is not very promising.

**LONG TRAIN OF DAMAGED
CARS WILL BE SENT TO
THE CHICAGO SHOPS SOON**

Repairing Facilities at the New Yards are Insufficient to Handle Numerous "Bad Orders."

Preparations are being made at the C. & N. W. freight yards to send a train of fifty damaged boxcars to the Chicago shops for repairs. Some of the cars were damaged while being switched in the yards during the past winter, while others have proved too upon them while coupled in the heavy trains which the big new engines of the road are hauling. The cars will be chained together and two engines, one on the head end and the other bringing up the rear, will take the train south. It is expected that the cars will be sent either tonight or tomorrow. Repairing facilities at the new yards have proved to be insufficient to handle the great number of "bad orders" that have been since tracked here.

**FAST BASKETBALL
GAMES ON FRIDAY**

High School Will Play Stoughton and Cardinals Will Meet Beloit College Team at the Rink.

Aches and Pains

"No remedy that I have used has been so sure a cure for pain of every kind as Dr. Miles' Anti-Pain Pills. They are a sovereign remedy for pain." MRS. H. BRADEN, Rapids, Maine.

Pains are in the nerves—all feeling is; headache, toothache, neuralgia, sciatica, rheumatic pains, backache, etc.—They're all there, but in different parts—it's nerve trouble.

Dr. Miles' Anti-Pain Pills relieve the nerve irritation, and the pain subsides—that's all, no derangement of the stomach, no disagreeable after-effects. That's why they are so popular with those that use them. The first package will benefit; if not, your druggist will return your money.

PRICES DROPPED ON
MANY COMMODITIES

First Effect of the Crusade on High
Prices Felt in
Chicago.

Janesville housewives will be inter-
ested in the drop in prices which oc-
curred in Chicago yesterday. Accord-
ing to this morning's Tribune adver-
tisors against the high cost of living
gained their first victory in their battle
against prevailing food prices yester-
day, when reductions of 3 per cent
to 5 per cent were announced in the
wholesale prices of eggs, butter, po-
tatoes, pork products, and the better
grades of dressed beef.

Big reductions also were made in
the prices of live hogs, cattle, and
sheep, and in the quotations on wheat,
corn, and provisions on the specula-
tive market. The latter have little
significance and may be recovered
before the commodities affected reach
consumptive channels, but Chicago
housewives have occasion to rejoice
in the former, as an immediate bene-
fit should be and will be derived if
the retailers follow the wholesalers
in reducing prices.

All the declines were attributed to
the widespread agitation over the high
cost of living and the government's
activity against the Chicago packers,
and its threat of enforcing gain in
strength and purpose further conces-
sions in the value of food products
and other necessities are expected.

Butter and Eggs Decline.

Of chief benefit to the housewife
were the declines in butter which
dropped from 22 cents a pound whole-
sale to 21 cents and in eggs, which
receded to 23 cents a dozen as con-
trasted to 24 cents last week. The
Eggs butter market recorded a big
shrink. Butter men who had been
bidding as high as 28 cents registered
bid of but 26 cents and received offer-
ings. The dealers practically decided
the price.

Three reasons were given in plain
as the cause of the decrease—the
agitation against the high price of
foodstuffs, a break in the corner on
butter held by the Fox River Butter
company of Aurora and the decline in
the demand since the holidays.

In the Chicago wholesale markets
potatoes went down to 25 cents and
40 cents a bushel against extreme
price of 22 cents on Saturday.

Dressed beef cuts were reduced to
17 1/2 cents for No. 1 ribs and 22 cents
for No. 1 loins, as contrasted to 18 1/2
cents and 23 cents respectively, be-
fore the decline went into effect. All
pork products were cheapened 5 cent
a pound which should be followed by
a like reduction in the retail prices of
pork chops, ham, bacon, and spiny
ribs.

Packers Buy Stock Sparingly.

In the live stock markets packers,
who usually furnish an outlet for
most of the stock shipped in from the
country acted as if uncertain of their
ground and displayed so much hesi-
tancy in making purchases that out-
side shippers and independent but-
chers had little competition to con-
tend with in filling orders.

This resulted in a semi-demoralized
trading conditions, and prices of
sheep and cattle dropped 15 to 25
cents a hundredweight while hogs sold
at a loss of 10 to 15 cents. Even-
after the reductions were made, pack-
ers restricted their purchases and
showed no inclination to operate with
freedom until some idea of how far
the present agitation was to be car-
ried on could be gained.

Pork products, on the board of
trade suffered a decline of 20 to 40
cents, and this loss exerted sufficient
pressure on the grain market
to cause losses of 12 to 15 cent
in the prices of wheat, corn, and oats.

The buying by shorts checked the
downward tendency of prices in the
speculative markets, or more serious
breaks might have been recorded, as
it was remarked that the outside
speculators seemed too much affect-
ed by the growing sentiment against
high prices of foodstuffs to give the
markets any material support.

Effects of Meat Boycott.

The Wall Street Journal estimates
that 2,000,000 persons are committed
to a boycott on meat. The effect of
their abstention is commented on
thus:

"At the rate of a pound a day for
each of these, the quantity left in the
market would be nearly equal to the
combined receipts and shipments of
cut meats at Chicago in twenty-four
hours. In other words, it is the same
as if the cut meats output had been
thrown back on the packing houses of
the country's greatest provision trade
center. It means that a thousand tons
of meat these 2,000,000 people were
accustomed to take daily, is left in
the hands of the people who handle
it. If this boycotting movement should
double its number within a week, the
consequences would be doubly as
great."

Ferry Bridge Over the Rhine.

The ferry bridge continues to find
favor in Europe. One of this type,
with a span of 910 feet, is planned
for erection across the Rhine at
Koblenz, Germany. The floor, with
its double track, will be carried by a
steel arch.

RESCUED CARRIER

FROM A DEEP DRIFT

M. Kildow, Carrier For Utter, Cor-
ners Patrons, Got Into Ten-foot
Drift and Was Dug Out.

[SPECIAL TO THE GAZETTE.]

Utter's Carriers, Jan. 24.—M. Kildow,
the mail carrier in this route, got into
a snow drift last week and but for the
thoughtfulness of his patrons, who
kept track of his movements, he
might have perished; as he exhausted
himself in his efforts to get out and
could do no more to help himself when
aid arrived. Mr. Kildow succeeded in
getting his horse on his feet but
could go no further and could not re-
turn, as he had sunk into a hole in
the snow ten feet deep. At the last
place he had visited, however, they
had phoned to the next man on the
route that Kildow had passed, and
when he did not arrive there, the peo-
ple set out to find him. Older and
he was called in and after shoveling
for twenty rods through ten feet of snow,
he reached William Tiedemann's where
he spent the night. It took nine men
and two teams of horses until three
o'clock the next day to clear the way
through the big cut north of the
church, a distance of thirty rods.
